

How To Destroy America In Three Easy Steps

Rami Elias Kremesti

How to Destroy America in Three Easy Steps Ben Shapiro, 2021-06-29 A growing number of Americans want to tear down what it's taken us 250 years to build--and they'll start by canceling our shared history, ideals, and culture. Traditional areas of civic agreement are vanishing. We can't agree on what makes America special. We can't even agree that America is special. We're coming to the point that we can't even agree what the word America itself means. Disintegrationists say we're stronger together, but their assault on America's history, philosophy, and culture will only tear us apart. Who are the disintegrationists? From Howard Zinn's *A People's History of the United States* to the New York Times' 1619 project, many modern analyses view American history through the lens of competing oppressions, a racist and corrupt experiment from the very beginning. They see American philosophy as a lie - beautiful words pasted over a thoroughly rotted system. They see America's culture of rights as a façade that merely reinforces traditional hierarchies of power, instead of being the only culture that guarantees freedom for individuals. Disintegrationist attacks on the values that built our nation are insidious because they replace each foundational belief, from the rights to free speech and self-defense to the importance of marriage and faith communities, with nothing more than an increased reliance on the government. This twisted disintegrationist vision replaces the traditional unionist understanding that all Americans are united in a shared striving toward the perfection of universal ideals. *How to Destroy America in Three Easy Steps* shows that to be a cohesive nation we have to uphold foundational truths about ourselves, our history, and reality itself--to be unionists instead of disintegrationists. Shapiro offers a vital warning that if we don't recover these shared truths, our future--our union--as a great country is threatened with destruction.

Bullies Ben Shapiro, 2013-01-08 In this galvanizing and alarming New York Times bestseller, “Ben Shapiro shows once and for all that the left is the single greatest source of bullying in modern American life” (Sean Hannity). While President Obama and the left like to pretend that they oppose bullying with all their hearts and souls, the truth is far darker: the left is the greatest purveyor of bullying in modern American history. Bullying has morphed into the left’s go-to tactic, as they attempt to quash their opponents through fear, threat of force, violence, and rhetorical intimidation on every major issue facing America today. In *Bullies*, Ben Shapiro uncovers the simple strategy used by liberals and their friends in the media: bully the living hell out of conservatives. Play the race card, the class card, the sexism card. Use any and every means at your

disposal to demonize your opposition—to shut them up. Then pretend that such bullying is justified, because, after all, conservatives are the true bullies, and need to be taught a lesson for their intolerance. Hidden beneath the left's supposed hatred of bullying lies a passionate love of its vulgar tactics. Dubbed by Glenn Beck "a warrior for conservatism, against those who use fear and intimidation to stifle honest debate," Shapiro takes on the leftist bullies—the most despicable people in America. By exposing their hypocrisy, he offers conservatives a reality check in the face of what has become the gravest threat to American liberty: the left's single-minded focus on ending political debate through bully tactics.

Is America Being Destroyed from Within? J. D. B. S. E. Gary Martin Meyers,J. D. Meyers,2015-06-26 This book considers the question whether the actions of President Obama over the last six years, along with the liberal and progressive political leaders who support him, represent the type of destruction of America from within that President Lincoln warned about over 150 hundred years ago.

Evil in America Ben Shapiro,2017-04-10

Three Simple Steps Trevor G Blake,2012-08-23 How many self-help books are written by authors whose biggest success is selling self-help books? Three Simple Steps is different. Despite stock market crashes, dot-com busts, and the specter of recession, the author started a virtual company from home, using a few thousand dollars of his savings. A few years later, without ever hiring an employee or leaving his home office, he sold it for more than \$100 million. As the economy slipped into another free fall, he did this again with a company in a different field. He accomplished this through no particular genius. Rather, he studied the habits of the many successful men and women who preceded him, and developed three simple rules that, if followed diligently, virtually ensure success. Using them first to escape poverty, then to achieve a life of adventures, he finally turned them toward financial independence. Written in a straightforward and no-nonsense style, Three Simple Steps shows you how to take back control of your destiny and reshape your mind for increased creativity, serenity and achievement. While building on the wisdom of great thinkers and accomplished individuals from East and West, Three Simple Steps isn't a new age text or guide to esoteric fulfillment. Rather, it's a practical guide to real-life achievement by a pragmatic businessman who attributes his incredible successes to these very simple ideas. Three Simple Steps is a must-read guide for everyone who wants to achieve more, live better and be happier.

The Right Side of History Ben Shapiro,2019 Conservative commentator Ben Shapiro argues that America has a God-shaped hole in its heart--one we shouldn't fill with politics and hate. Too many have lost sight of our moral purpose and our duty to work together for the greater good.

This Muslim American Life Moustafa Bayoumi,2015-09-18 Winner of the 2016 Evelyn Shakir Non-Fiction Arab American Book Award A collection of insightful and heartbreaking essays on Muslim-American life after 9/11 Over the last

few years, Moustafa Bayoumi has been an extra in *Sex and the City 2* playing a generic Arab, a terrorist suspect (or at least his namesake “Mustafa Bayoumi” was) in a detective novel, the subject of a trumped-up controversy because a book he had written was seen by right-wing media as pushing an “anti-American, pro-Islam” agenda, and was asked by a U.S. citizenship officer to drop his middle name of Mohamed. Others have endured far worse fates. Sweeping arrests following the terrorist attacks of September 11, 2001 led to the incarceration and deportation of thousands of Arabs and Muslims, based almost solely on their national origin and immigration status. The NYPD, with help from the CIA, has aggressively spied on Muslims in the New York area as they go about their ordinary lives, from noting where they get their hair cut to eavesdropping on conversations in cafés. In *This Muslim American Life*, Moustafa Bayoumi reveals what the War on Terror looks like from the vantage point of Muslim Americans, highlighting the profound effect this surveillance has had on how they live their lives. To be a Muslim American today often means to exist in an absurd space between exotic and dangerous, victim and villain, simply because of the assumptions people carry about you. In gripping essays, Bayoumi exposes how contemporary politics, movies, novels, media experts and more have together produced a culture of fear and suspicion that not only willfully forgets the Muslim-American past, but also threatens all of our civil liberties in the present.

Escape Plus Ben Bova, 1984-12-15 No one could move without being followed. No one could speak without being overheard. The almost sentient computer system was everywhere. The prison was billed as escape-proof, and so far that was true. But Danny Romano was not about to believe it... the jail hadn't been built that could hold him. Danny would escape. Even if he had to permanently change his identity to do it. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Blackout Candace Owens, 2020-09-15 NEW YORK TIMES BESTSELLER It’s time for a black exit. Political activist and social media star Candace Owens addresses the many ways that Democrat Party policies hurt, rather than help, the African American community, and why she and many others are turning right. Black Americans have long been shackled to the Democrats. Seeing no viable alternative, they have watched liberal politicians take the black vote for granted without pledging anything in return. In *Blackout*, Owens argues that this automatic allegiance is both illogical and unearned. She contends that the Democrat Party has a long history of racism and exposes the ideals that hinder the black community’s ability to rise above poverty, live independent and successful lives, and be an active part of the American Dream. Instead, Owens offers up a different ideology by issuing a challenge: It’s time for a major black exodus. From dependency, from victimhood, from miseducation—and the Democrat Party, which perpetuates all three. Owens explains that government assistance is a double-edged sword, that the Left dismisses the faith so important to the black community, that Democrat permissiveness toward abortion disproportionately affects black babies, that the #MeToo movement hurts black men, and much more. Weaving in her personal story, which ushered her from a roach-infested low-income apartment to 1600 Pennsylvania Avenue, she demonstrates how she overcame her setbacks and challenges despite the cultural expectation that she should embrace a victim mentality. Well-researched and intelligently argued, *Blackout* lays bare the myth that all black people should vote Democrat—and shows why turning to the right will leave them happier, more successful, and more self-sufficient.

The Plot to Destroy Democracy Malcolm Nance, 2018-06-26 A provocative, comprehensive analysis of Vladimir Putin and Russia's master plan to destroy democracy in the age of Donald Trump. In the greatest intelligence operation in the history of the world, Donald Trump was made President of the United States with the assistance of a foreign power. For the first time, *The Plot to Destroy Democracy* reveals the dramatic story of how blackmail, espionage, assassination, and psychological warfare were used by Vladimir Putin and his spy agencies to steal the 2016 U.S. election -- and attempted to bring about the fall of NATO, the European Union, and western democracy. It will show how Russia and its fifth column allies tried to flip the cornerstones of democracy in order to re-engineer the world political order that has kept most of the world free since 1945. Career U.S. Intelligence officer Malcolm Nance will examine how Russia has used cyber warfare, political propaganda, and manipulation of our perception of reality -- and will do so again -- to weaponize American news, traditional

media, social media, and the workings of the internet to attack and break apart democratic institutions from within, and what we can expect to come should we fail to stop their next attack. Nance has utilized top secret Russian-sourced political and hybrid warfare strategy documents to demonstrate the master plan to undermine American institutions that has been in effect from the Cold War to the present day. Based on original research and countless interviews with espionage experts, Nance examines how Putin's recent hacking accomplished a crucial first step for destabilizing the West for Russia, and why Putin is just the man to do it. Nance exposes how Russia has supported the campaigns of right-wing extremists throughout both the U.S. and Europe to leverage an axis of autocracy, and how Putin's agencies have worked since 2010 to bring fringe candidate Donald Trump into elections. Revelatory, insightful, and shocking, *The Plot To Destroy Democracy* puts a professional spy lens on Putin's plot and unravels it play-by-play. In the end, he provides a better understanding of why Putin's efforts are a serious threat to our national security and global alliances -- in much more than one election -- and a blistering indictment of Putin's puppet, President Donald J. Trump.

Facts (Still) Don't Care about Your Feelings Ben Shapiro, 2020-08-08 A lot has changed since summer 2019, and Ben Shapiro has something to say about it. In this sequel to *Facts Don't Care About Your Feelings*, Shapiro breaks down American politics in 2020 like you've never seen before. Review the political dog fight and race to the presidency through a poignant lens. Analyze the novel coronavirus and its economic implications through a perspective too often stamped out by leftist mass media. Explore the absurdities of anti-racism and mostly peaceful protests and civil unrest. And explore the themes that make up the American identity we have lost in the mayhem: unity, free speech, capitalism and so much more.

Reasons to Vote for Democrats Michael J. Knowles, 2017-04-11 Read the book that Donald Trump called "a great book for your reading enjoyment!" The most exhaustively researched and coherently argued Democrat Party apologia to date, *Reasons to Vote for Democrats: A Comprehensive Guide* is a political treatise sure to stand the test of time. A must-have addition to any political observer's coffee table. *** Lefty lawyers require that we state the book is mostly blank and contains precisely 1,235 words.

Irresistible Revolution Matthew Lohmeier, 2021-05-01 *Irresistible Revolution* is a timely and bold contribution from an active-duty Space Force lieutenant colonel who sees the impact of a neo-Marxist agenda at the ground level within our armed forces. In it, author Matthew Lohmeier provides answers to many important questions that Americans are currently asking: Is systemic racism a reality, or is much of our talk about race merely a rhetorical tool used to divide Americans? Why has the Defense Department suddenly shifted to a focus on extremism within the ranks? Is there really a white supremacy or white nationalist problem within our armed forces? Are the many Diversity and Inclusion trainings that are being conducted in our federal agencies helping solve these problems, or are they creating conflict where none previously existed? What is Marxism, and what does it have to do with all of this? Though pundits often appear perplexed by current policy decisions being made in

our country, our apparent missteps are part of a longstanding plot against America, patiently and methodically pursued by those with a mind intent on the overthrow of the US Government and its replacement with a communist dictatorship. Unfortunately, many of those now furthering that agenda do so unwittingly. After becoming aware of the Marxist conquest of American society, you will never again look at things in the same way. Mainstream media, social media, the public education system (including universities), as well as federal agencies have all become vessels of various schools of thought that are rooted in Marxist ideology - an ideology bent on the destruction of America's history, of Western tradition, specifically Judeo-Christian values, and of patriotism and conservatism. Marxism's sinister and dark agenda has led the country into what some have called a cold civil war. The problem has become systemic, a tragedy considering that the defeat of Marxist-communist ideology was the very cause against which our nation spent great treasures of blood and iron during much of the twentieth century. The book's three-part framework begins with a discussion of the greatness of the American ideal (including the importance of the Declaration of Independence, the Constitution, the Bill of Rights, and the notions of individual and civil liberties), transitions to an examination of the history and overarching narrative of Marxist ideology (specifically Marx's and Engels' Communist Manifesto wherein the oppressor vs. oppressed narrative is developed), and concludes by looking into the ongoing transformation of America's military culture and military policy, while also providing a warning about where the country is headed if we choose to not make an immediate course correction. Irresistible Revolution also covers a breadth of hot topics everyone is hearing and talking about - topics that actually have implications for our national security: woke ideology, cancel culture, identity politics, the Black Lives Matter movement, anti-racism, postmodernism, political correctness, and critical and cynical theories, to include critical race theory. Lohmeier's penetrating and common sense look at current events within our military and across American society is a sublimely unique contribution that is certain to be shared, referenced, and discussed for years to come. Every American, including every US military servicemember, needs to read and understand the Irresistible Revolution.

The American Unity Plan Alan Nager, 2023-11-05 Can unity be achieved in America or are we too divided as a nation? Can American principles such as fairness, equality under the law, and reasonable accommodation be applied to many of America's greatest needs? America is looking for real solutions that are bold and can be supported by even the most ardent Conservatives and Progressives. Without a long-term plan to address the social safety net (retirement, healthcare, and education), immigration, climate defenses, taxation, inflation, and the federal budget, we will continue to devolve into separate Americas. The current proposals by both political parties are incrementally making these problems worse, putting future generations at risk. Rather, The American Unity Plan is a fully integrated, bold solution that can be supported by the American people. It is a uniquely American roadmap for long-term success incorporating ideas from across the political spectrum.

Megalopsychia Rami Elias Kremesti,2024-01-05 According to Rami Elias Kremesti, nothing in life is worse than living in ignorance... After many years of living in depression, fear, anxiety, hate and confusion, the author feels he is finally emancipated and enlightened and wants to bring a taste of this sweetness to the reader... In his third book, he talks about the accomplishments of the Jewish people, the same people that were and are still demonized in his home country of Lebanon. Rami was lucky he was able to escape from the toxic milieu of Lebanon after the end of the civil war. Instead of East, he went to the decadent “West” where paradoxically, he tasted the truth in the poetry of Rumi in Los Angeles, which was his home for about six years. There he also met some Jewish people that became his lifelong loyal friends. As Rumi puts it, his soul caught fire... He discovered the meaning of loving one’s enemy and turning the other cheek... You see dear reader, when one tastes divine love, all pettiness, anger, and attachment dissolves... One starts to see unity instead of division... All religions, one praise, as Rumi puts it...In his first book, *The Other Cheek of Islam*, he reached out to his Muslim brothers. In his second book, *For Love of the Sacred Awe*, he talks about beauty and aesthetic. In his third one he reaches out to his Jewish brothers.

Raising Conservative Kids in a Woke City Stacy Manning,Katy Faust,2023-09-26 In *Raising Conservative Kids in a Woke City*, two moms living in the bluest of cities offer practical guidance, parenting strategies, and humorous commentary to help parents immunize their children against Woke infection. In whichever zip code or tax bracket you dwell, there’s hope for parents who seek to indoctrinate their kids into conservatism—that is, kids who understand historical, economic, and biological reality. This book coaches parents in the how, when, and who of teaching children to think about the world rightly. The authors identify principles and processes that walk the line between protection and exposure, sheltering and equipping. They also share real-life stories of kids who have effectively pushed back against aggressive adults, stood against the crowd, and won conservative converts. If two moms sending their kids to public school in Seattle can raise conservative kids, you can too.
